After School Program - The Y works to ensure that youth not only have access to affordable, quality after school programming, but are also in a safe and nurturing environment around caring adults, where they can learn, play and grow. Our program provides a practical child care option for working parents. Youth will receive a healthy snack and participate in activities that keep them active and productive after the school day ends. Kids can walk to the after school program or get dropped off by the Le Mars School Bus Route and a YMCA staff member will meet the kids at the bus.
